

TLC UV CHAMBER

BI- TLC-001 TLC UV CHAMBER

UV Exposed area: 300 x 300 mm UV Tubes: Short wave 254nm Long Wave 365nm White Light UV Window: UV Protective shield UV Area: Rubber mat with strips Input Voltage: 230v +/-10% AC 50Hz

FEATURES:

- Large and clear 4 digital display giving smaller increments for wider volume selection.
- High Quality plastic combined with finely polished stainless steel piston ensure accuracy.
- Light weight and ergonomic design for user comfort.
- The micropipette allow better changing of volume yet preserving accuracy. By locking the set volume while performing, accidental changes to the pipette volume setting are avoided.
- The manifold should rotate 360°. for comfortable pipetting in any direction.
- Precision designed tip cones provide leak proof top fit.
- Easy operation and handling.
- Each pipette supplied with calibration tool and factory calibration certificate.
- Slender shaft for universal tip fit.
- Accuracy and Precision values provided are better than those laid down in the ISO 8655 standards
